Access your home exercise program with our mobile app for iOS and Android.

- Search The App Store or Google Play for **"MedbridgeGO"**.

Open in your browser

To access your home exercise programs.

By Accessing Online You Can

View your exercise videos

Interactive HD videos guide you with easy to follow instructions.

Learn about your condition

Gain a deeper understanding of your condition and the road to health recovery.

Track your progress

Keep track of your activity and progress throughout treatment and post care.

MEDBRIDGE

Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Seated Wrist Extension with Dumbbell

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Sit with one arm resting on a table, grasping a lightweight dumbbell and palm facing downward.

Movement

Bend your wrist backwards towards your body, then slowly return to the starting position.

Tip

Make sure to only move your wrist, and avoid any forearm or shoulder movement during the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Seated Wrist Flexion with Dumbbell

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Sit with one arm resting on a table, grasping a lightweight dumbbell and palm facing upward.

Movement

Curl your wrist towards your body, then slowly return to the starting position.

Tip

Make sure to only move your wrist, and avoid any forearm or shoulder movement during the exercise.

As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Seated Wrist Radial Deviation with Dumbbell

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Sit with one arm resting on a table, holding a lightweight dumbbell firmly in your hand, fist facing inward.

Movement

Slowly bend your wrist, raising the dumbbell upward, then return to the starting position.

Tip

Make sure to keep your fist facing the middle of your body.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Forearm Pronation and Supination with Hammer

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Begin sitting with your forearm resting on a table, holding a hammer.

Movement

Slowly rotate your forearm back and forth.

Tip

Make sure to keep your wrist straight throughout the movement.

As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Seated Gripping Towel

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Begin sitting upright with your arm resting on a table, hand off the edge, holding a rolled towel.

Movement

Squeeze the towel, then relax and repeat.

Tip

Make sure to keep the rest of your arm relaxed during the exercise.

As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Tip Pinch with Putty

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Can use a rolled up towel instead of putty.

Setup

Begin sitting upright with a roll of putty on the table.

Movement

Using the tips of your index finger and thumb, gently pinch into the putty.

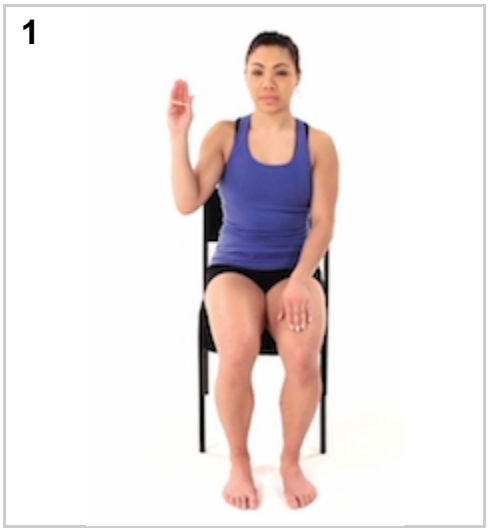
Tip

Make sure to keep your wrist straight and only move through a pain free range.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Resisted Finger Extension and Thumb Abduction

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7



Setup

Begin this exercise with a rubber band secured around all four fingers and your thumb. Your hand should be slightly cupped.

Movement

Gently spread your fingers and thumb apart, then slowly return back to the starting position and repeat.

Tip

Make sure to keep your fingers and wrist as straight as you can during this exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Hand Towel Scrunching

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Begin sitting upright with your arm resting on a table and your hand face down on a towel.

Movement

Scrunch the towel with all of your fingers.

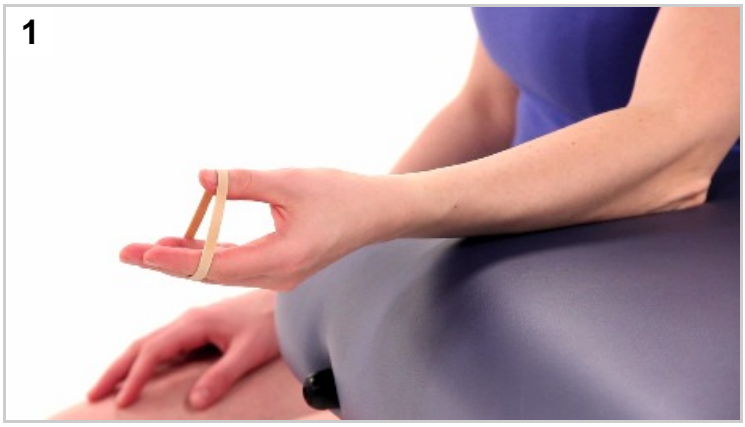
Tip

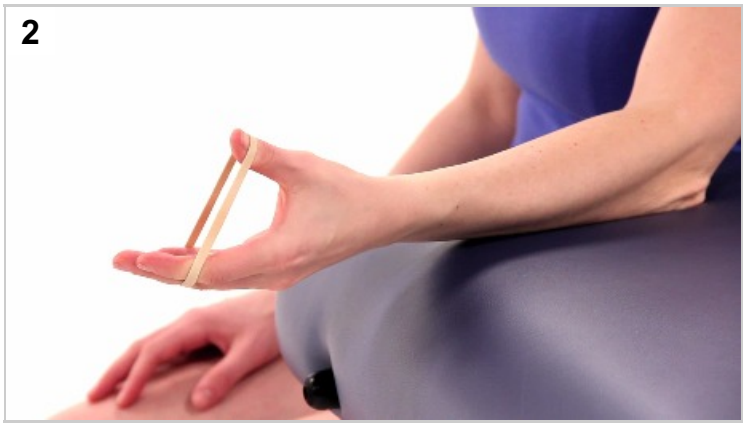
Make sure to keep your movements controlled.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Seated Thumb Extension with Resistance

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7





Setup

Begin with your wrist and fingers straight with your palm facing up and a rubber band around your fingers.

Movement

Move your thumb away from your palm, then slowly return to starting position and repeat.

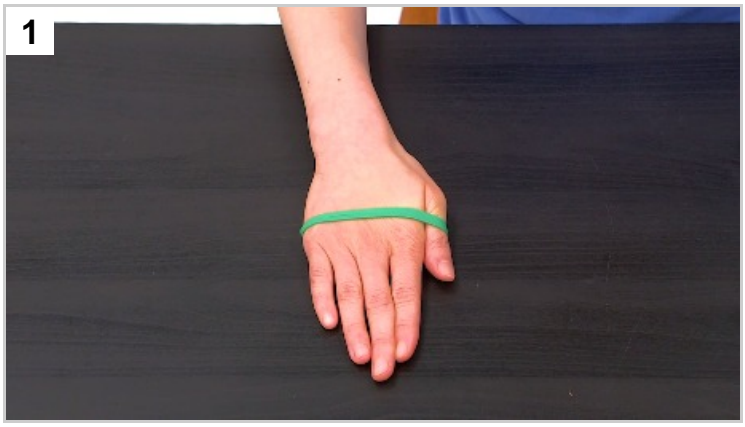
Tip

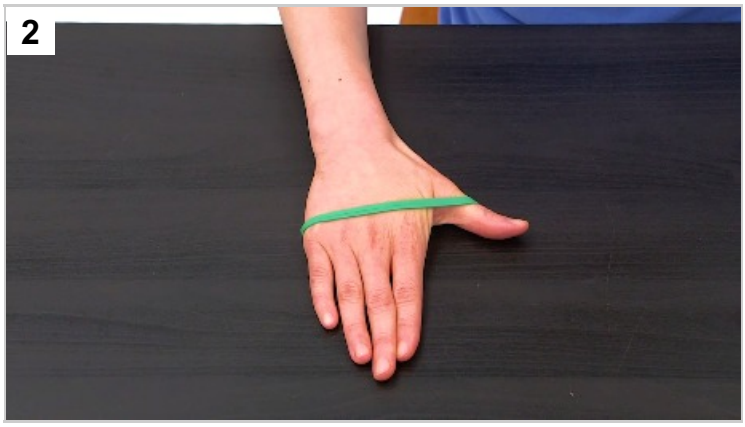
Make sure to keep your fingers and wrist straight throughout the movement.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Thumb Radial Abduction with Rubber Band - Palm Down

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7





Setup

Begin with your wrist and fingers straight with your palm facing down and a rubber band around your fingers.

Movement

Move your thumb outward, away from your palm, then slowly return to starting position and repeat.

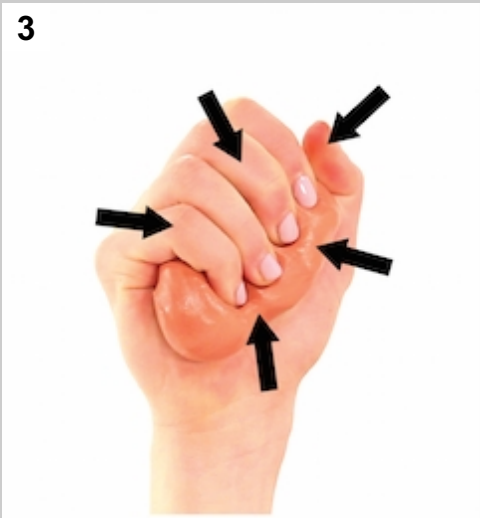
Tip

Make sure to keep your fingers and wrist straight during the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Putty Squeezes

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7



Setup

Begin sitting with your hand in a comfortable position, holding putty in your palm.

Movement

Gently squeeze the putty using all of your fingers equally, and repeat.

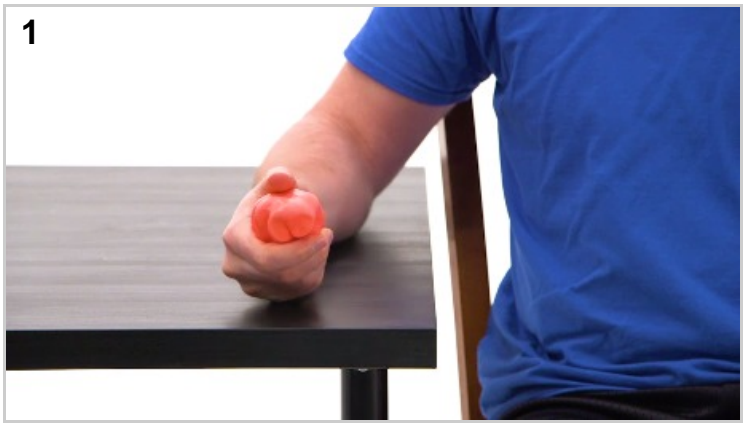
Tip

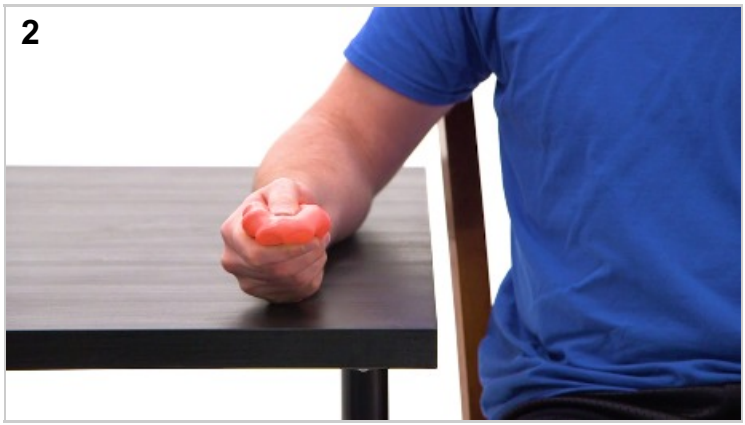
Make sure to keep the rest of your arm relaxed during the movement.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Key Pinch with Putty

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7





Setup

Begin sitting upright with a ball of putty between your thumb and the side of your index finger.

Movement

Press the putty down into the side of your index finger, keeping the tip of your thumb straight. Reshape the putty, and repeat.

Tip

Make sure to keep your wrist and the tip of your thumb straight.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Rolling Putty on Table

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Begin sitting upright with your arm resting on a table and a roll of putty under your fingers.

Movement

Slowly roll the putty back and forth over the table.

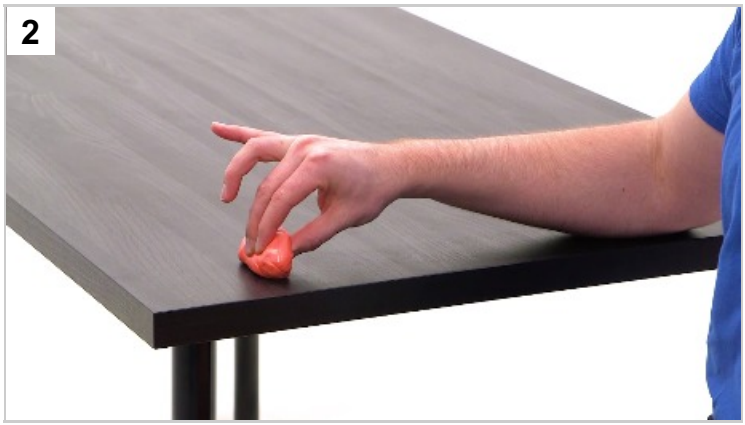
Tip

Make sure to keep your arm relaxed during the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

3-Point Pinch with Putty

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7



Setup

Begin sitting upright with a ball of putty on the table.

Movement

Using the pads of your thumb, index and middle fingers, press into the putty. Reshape the putty, and repeat.

Tip

Make sure to keep your wrist straight and only move through a pain free range.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Finger Lumbricals with Putty

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7

Setup

Begin sitting with your arm resting on a table and a ball of putty between your thumb and the rest of your fingers.

Movement

Squeeze the putty, keeping your fingers straight, then relax and repeat. Re-form the ball when it becomes too flat.

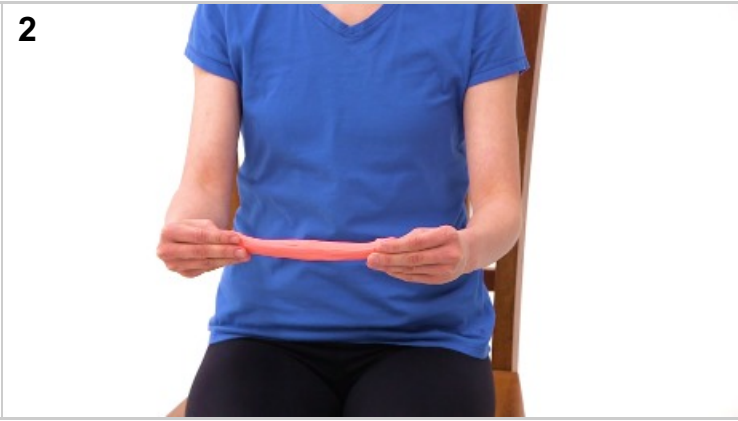
Tip

Make sure to keep the rest of your arm relaxed during the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.

Finger Pinch and Pull with Putty

REPS: 10	SETS: 3	DAILY: 1	WEEKLY: 7



Setup

Begin sitting upright in a chair holding the ends of a roll of putty in each hand with the tips of your fingers.

Movement

Pinch the putty with your fingers and pull your hands apart to stretch the putty. Reshape the putty and repeat this movement.

Tip

Make sure to keep your wrists straight and your shoulders relaxed during the exercise.

MEDBRIDGE Disclaimer: This program provides exercises related to preventative maintenance OR to your condition that you can perform at home. As there is a risk of injury with any activity, use caution when performing exercises. If you experience any pain or discomfort, discontinue the exercises and contact your healthcare provider.
